

Project contract

1. To succeed in building a working prototype of autonomous flying drone.
2. Marginally ambitious in feature implementation.
3. We are willing to invest basically all the time while we are here, maybe except some student gathering activities.
4. We expect others to invest at least the time that is written in the schedule
5. The work should be done together
6. No leader
7. Democracy voting
8. Regular schedule hours 8-16
9. Whatever he or she prefers
10. No credit for the work that was done by others
11. Python programming
12. Chatting online is preferable when not on the spot
